# Guided Gardens Tours

with **Marina Christopher**

**(2.30-3pm)**

## **Walled garden designed by Piet Oudolf (April, June and August)**

The dynamic inner walled garden is constantly changing. When planted in 1997, this was the first naturalistic garden designed by Piet Oudolf in Britain.

## **Front garden designed by Christopher Bradley-Hole (May, July and September)**

Designed with a formal grid pattern of square flowerbeds with a central seating area and pool. Predominately grasses interspersed with small bursts of colour in the red and yellow spectrum.
